THE STAR COOK BOOK

THIRD EDITION

COMPILED BY THE LADIES OF THE
“ STAR SOCIETY ”
OF THE GRACE M. E. CHURCH,
PEKIN, ILLINOIS.

*We may live without poetry, music, and art ;
We may live without conscience, live without heart ;
We may live without friends, we may live without books ;
But civilized man can not live without cooks.*

*We may live without books: what is knowledge but grieving?
We may live without hope: what is hope but deceiving?
We may live without love: what is passion but pining?—
But where is the man that can live without dining?*

PREFACE

(Third Edition)

The ladies of the "Star Society" of the Grace M. E. Church of Pekin, Illinois, have been gratified because the real merit of The Star Cook Book has been so widely recognized. There has been a constant demand during the past four years for a Third Edition, and the time has come when it can no longer be disregarded.

The Star Cook Book has been thoroly revised and improved by eliminating duplicate recipes, and by adding many new ones, all of which have been found practical in economy, food-value, and appetizing quality, and are vouched for by those whose signature they bear. In addition the ladies of the "Star Society" have tested and approved each recipe.

Confident that they are making a valuable contribution to the art of Home Cooking, this Third Edition of the "Star Cook Book" is sent upon its mission by the ladies of "The Star Society."

SOUPS

“Now good digestion wait on appetite, and health on both.”

—*Shakespeare.*

Stock is prepared by extracting the juice of meats by slow boiling, after which various ingredients may be added to give character to the soup.

White Stock.—4 pounds knuckle of veal, 1 pound lean beef, 2½ quarts cold water, 10 pepper corns, 1 small onion, 2 stalks celery, 1 bay leaf, 1 tablespoonful salt. Remove the veal from the bone and cut it in small pieces. Do the same with beef, only making the pieces smaller. Put meat and bone into a kettle and add the water. Bring it slowly to a boil and skim carefully. Add other ingredients and simmer for five hours. Strain twice through several thicknesses of cheese cloth and the stock will be clear. White stock can be made from the water in which a fowl or chicken is cooked. This recipe will produce three pints of soup stock.

Extract of Beef (for sick).—Cut lean round steak in squares, put in fruit jar and seal. Then place jar in a kettle of cold water and when water comes to a boil let it simmer on back of stove until all of the juice is extracted from the meat. Serve the pure extract or dilute with hot water. Season to taste

MRS. FRANK HECKMAN.

Bouillon.—Select a good soup bone; cover with cold water and let come slowly to a boil. Add a little celery, carrots, parsley, and onion if liked. Salt and pepper to taste. Cook well—until meat is tender. Strain. Cook day before using; next day skim off all grease, reheat and serve.

MRS. ULRICH YORK.

Asparagus Soup.—Cut as much asparagus as you want, boil in water till tender; then put as much milk in a pan as you want soup, remove asparagus from water and add to milk; also add a tablespoon of butter; stir a spoon of flour in a little cold milk; when the asparagus boils add the flour and boil; add a little salt, pepper, and serve it over toasted bread squares.

MRS. P. HECKMAN.

Baked Bean Soup.—1 cup baked beans, 1 cup tomato, 3 cups water; cook and strain. Make a sauce with 2 teaspoons butter, 2 teaspoons flour, $1\frac{1}{2}$ teaspoons salt, $\frac{1}{2}$ teaspoon mustard, $\frac{1}{8}$ teaspoon pepper, and strained liquid. Let it cook well. If desired, a slice of onion may be added to the tomato.

MISS HELEN M. DAY.

Domestic Science, Bradley Institute,
Peoria, Ill.

Celery Soup.—Chop fine 1 bunch of celery, cover with water and boil. When tender add 1 quart of milk; let it come to a boil and add 1 tablespoon of butter, salt and pepper to taste.

MRS. MARY WOOST.

Cream of Celery Soup.—2 cups white stock, 2 cups celery (cut in inch pieces), 2 cups hot water, one small onion, 3 tablespoonsful butter, 3 tablespoonsful flour, 1 pint milk, $\frac{1}{2}$ pint cream, 1 teaspoonful salt, 1 half teaspoonful white pepper. Parboil celery in water for fifteen minutes, drain and add the celery to the stalk. Cook until the celery is very soft. Rub it through a sieve. Scald the onion in the milk. Remove the onion and add the milk to the stalk. Cream the flour and butter together and add them also to the stalk. Lastly add the cream and season with the salt and pepper. This will serve six persons.

Other cream soups are made in the same manner by using the particular vegetable instead of the celery.

MRS. CHARLES SCHAEFER.

Chicken Noodle Soup.—Cut an old chicken in pieces, wash it thoroughly, put in soup kettle with as much water as you want soup, with a tablespoon of salt, a bay leaf, a carrot, and an onion: let it boil slowly until the chicken is tender, then strain through a sieve in another kettle.

For noodles, rub into 2 eggs as much sifted flour as they will absorb, then roll out until thin as a wafer; dust over a little flour, and then roll over and over into a roll: cut off thin slices from the edge of the roll and shake out into long strips; put them into the soup lightly and boil for 10 minutes.

MRS. ANNETTE MEINEN.

Chicken Soup.—Take 1 chicken and cut in pieces. Wash it thoroughly and put in a soup kettle with about two quarts of water, then after taking out the chicken add one tablespoon salt and a little nutmeg, about $\frac{1}{4}$ teaspoonful. Then take one tablespoonful of flour and mix with a little milk to a smooth paste. Add the yolks of two eggs beaten into the milk and flour. Add to soup and let come to a boil.

MRS. JOHN VELDE.

Chocolate Soup.—Put 1 quart of milk in double boiler; add 2 tablespoons of small sago: let boil for $\frac{1}{2}$ hour with a small piece of stick cinnamon; add 1 small square of chocolate, grated. When sufficiently cooked, take 2 eggs, beaten separately; pour the hot chocolate soup over the 2 egg yolks, beating constantly. Last beat the whites, add a little sugar, and put a small portion on each soup bowl.

Peoria, Ill.

MRS. KATHERINE BOLEY.

Cream Soup.—Take half sweet cream and half water and bring to a boil. Toast some stale bread and break into pieces in a bowl, and pour the cream and water over it. Salt to taste.

MRS. E. C. MAGARET.

Cream of Corn.—1 can corn, cover with 3 cups water; simmer for 1 hour and strain. Scald 3 cups milk, add the corn and 1 tablespoon of butter creamed smooth with 1 tablespoon of flour. Add $\frac{1}{2}$ cup cream, mix until smooth, and season: add beaten yolk of 1 egg. Serve at once after egg has been added.

MRS. A. H. PURDIE.

Farina Soup.—1 quart milk, let come to a boil; add $\frac{3}{4}$ cup farina, sugar to sweeten, small stick of whole cinnamon, and a pinch of salt.

MISS DELLA VALK.

Mexican Chili.— $1\frac{1}{2}$ pounds round steak, chopped fine, 3 onions, 3 kernels of garlic, cut fine. Fry these in two tablespoons of sweet lard; add 3 heaping teaspoons of "Chili pepper," $\frac{1}{2}$ teaspoon of black pepper, salt to taste. Cook one half hour then add one can of tomatoes, one can of kidney beans. Simmer on back of range two hours.

MRS. WM. SCHAEFER.

Navy Bean Soup.—Soak 1 cup navy beans over night. In the morning, about 4 hours before serving, drain, wash, add plenty of fresh water and a medium size piece of hamshank, also small piece of bacon. Let boil slowly and add more water as needed. Season with salt and pepper to taste about an hour before serving.

MRS. GEORGE ELDREDGE.

Oyster Soup.—Put a pint of oysters in a sauce pan and cook until edges curl. Add salt to oysters. At same time put one quart of milk, a piece of butter size of walnut and pepper into another pan, and scald. When oysters are curled add them to the milk and serve at once.

Onion Soup.—(For two plates).—Take 2 onions, peel and slice; fry them in butter till soft—do not brown them. Boil broth and add onions and grated cheese. Season it and serve with small toast.

Chicago, Ill.

MRS. HUGO J. SCHMIDT.

Lentil or Split Pea Soup.—1 cup dried lentils or peas, 2 cups water, $\frac{1}{2}$ onion, 2-inch cube fat salt-pork, 3 tablespoons butter, 4 tablespoons flour, $1\frac{1}{2}$ teaspoons salt, $\frac{1}{3}$ teaspoon pepper. Pick over lentils or peas, soak several hours or over night, drain; add cold water (enough to make 4 cups with amount absorbed), pork and onion: simmer until soft—3 or 4 hours—rub through a sieve. Cook butter, flour, and seasoning as for White Sauce; add pulp and cook well. If too thick, thin out with water or milk.

Domestic Science, Bradley Institute,
Peoria, Ill.

MISS HELEN M. DAY.

Pea Soup with Dumplings.—Put 2 quarts of hulled peas on the fire with 4 quarts of water; put in a generous spoonful of butter, and salt to taste. In the meanwhile, put a pint of sweet milk in a small skillet, add a spoonful of butter and a little salt; when it boils stir in enough flour, keeping the milk over a slow fire, till it becomes a dough which loosens from the sides and the bottom of the skillet. Take from fire, and after it is cooled stir in 5 eggs, 1 at a time. When the peas in the soup are done, drop in the dumplings by spoonfuls, dipping the empty spoon into the boiling soup every time to cause the dumplings to drop off from the spoon easily. Let them boil a few minutes. Canned peas can be used when peas are out of season.

Belleville, Ill.

MRS. E. C. MAGARET.

Pocket Book Soup.—Take a soup bone or a good piece of soup meat and let boil with enough water to make a good broth. Season and add any vegetables that you desire. For the pockets (this amount will make 8 or 10 pockets), take 2 eggs, 1 tablespoon water, $\frac{1}{2}$ teaspoon salt. Beat up eggs, add salt and water, with enough flour to roll out like noodle dough. Cut in squares, then add the following: 10 cents worth ground pork, or pork and beef mixed, 1 cup of soaked bread, 1 egg, 1 teaspoonful salt, a little pepper, a pinch of sage; mix well: place some on each square of the

noodle dough, and form a closed pocket, moistening the edges so they will stick. Boil in the broth 15 minutes, and serve with soup.

MRS. HENRY KOCH.

Potato Soup.—3 potatoes cut fine, cook in water with salt and pepper to suit taste. Brown in skillet butter size of an egg, small tablespoon flour, and onion, cut fine: put in soup. Flavor with celery or parsley, if desired.

MRS. CAMP SPEAKER.

Rice Tomato Soup.—Prepare two quarts of good stalk. A shank bone and a ham are preferable for the stalk. Cook together slowly for one half hour the following: one quart tomatoes, one small red pepper, good pinch of nutmeg, small bay leaf, one stalk of celery, $\frac{1}{2}$ teaspoon cinnamon, $\frac{1}{2}$ teaspoon sage, 5 or 6 cloves. Strain and add to the soup stalk which has been strained also. Cook $\frac{1}{4}$ cup of rice and add to the above mixture. Thicken slightly with cornstarch or arrow-root. Let boil up thoroughly, salt to taste and serve with croutons.

Domestic Science, Bradley Institute,

MRS. J. D. JANSEN.

Vegetable Soup.—Take a piece of soup meat, put it on the stove in cold water 4 hours before serving. Do not allow to boil hard—just simmer. Add 2 carrots cut into dice, 1 stalk celery, 1 large onion, $\frac{1}{4}$ cup rice, salt, and pepper. An hour before serving add 4 potatoes, cut into small pieces, 2 tomatoes, sliced, or $\frac{1}{2}$ cup of canned tomatoes. Just before taking from fire add a teaspoonful of finely minced parsley.

DORA ALBERTSON ROMPEL.

Winter Vegetable Soup.—Put a 15 cent beef shin bone in large kettle with cold water to cover, about 4 hours before dinner. Bring slowly to a boil and skim. Put on 1 cup of navy beans in cold water, with $\frac{1}{2}$ teaspoon soda added: bring to a boil, boil few minutes, drain and rinse. Add to boiling soup meat. About 2 hours before serving time, add salt, pepper, several shakes of celery salt, 1 teaspoon Kitchen Bouquet, and the following vegetables: 1 or 2 onions, 1 large cupful each of carrots and cabbage, cut fine; 2 cupfuls potatoes, cut in dice. Keep boiling steadily till time to serve, adding boiling water, if needed.

Dumplings.—2 cups flour, 4 teaspoonfuls baking powder, $\frac{1}{2}$ teaspoon salt, $\frac{1}{2}$ tablespoon butter, $\frac{3}{4}$ cup milk. Sift flour, baking powder, and salt together 2 or 3 times. Work in butter with the finger tips, and, when thoroughly mixed, add milk gradually. Beat well and drop this thick batter by heaping tablespoonfuls upon potatoes or meat in the stew kettle. If liquid comes above potatoes or meat, pour off a little, as the dumplings should not rest on liquid, but on meat or potatoes above it. Cover kettle and cook 6 minutes, when dumplings should be thoroughly steamed and light. Take up dumplings on a separate platter.

Tremont, Ill.

MISS WILMA FLUEGEL.

Potato Dumplings.—Boil the potatoes the day before with jackets on. Grate potatoes, and to 3 parts potatoes add 1 part of grated bread, cutting the crusts in small bits, and fry brown in butter: to every pint of this allow 2 eggs, beating the whites stiff; mix this well with the hands, adding the beaten whites last: salt and nutmeg. Form in dumplings, turn in flour, and drop into boiling water and boil 15 minutes.

Take a hickory plank about 1 inch thick and to fit in oven, and let soak in cold water for $\frac{1}{2}$ hour; dry, and butter on 1 side: place the fish in center of the plank and put mashed potatoes all around fish, patting them down well, to keep the juice from running out; cut several small holes in side of fish and fill with butter. Bake in oven $\frac{3}{4}$ of an hour, and serve on plank. Before removing from oven, add a sliced lemon, allowing juice to soak in fish and potatoes.

POULTRY AND GAME

“Let’s carve him as a dish fit for the gods,
Not hew him as a carcass.”—*Julius Caesar*.

Fowls are better if killed the day before using; and during the winter months keeping a longer time is an improvement.

All kinds of poultry and meats can be cooked quicker by adding to the water in which they are boiled, a little vinegar or a piece of lemon. A piece of baking soda the size of a pea will answer the same purpose.

A fowl, to be stewed, should be dropped in cold water. This extracts the juices and renders the gravy richer. To be boiled whole and preserve the juices, it should be put in boiling water.

Lard rubbed over a fowl, that is prepared for roasting, will prevent burning.

To remove down from ducks and geese, remove the feathers, then sprinkle powdered rosin over the duck, or goose, and dip in a kettle of boiling water two or three times. The down can easily be removed with the fingers.

To Dress Poultry.—After picking and singeing, make an incision at the lower part of the breast bone, cut off the oil-bag, and remove entrails, carefully preserving the giblets. Remove the gall-bag from the liver with great care. Make an incision through the thick part and first lining of the gizzard, peeling off the fleshy part. Clean the heart and throw all into slightly salted water. Cut off feet at first joint, cut a slit in neck and take out wind-pipe and crop, then wash the fowl inside, rinsing in salt water is desirable.

To Bake Poultry and Game.—After seasoning, put fowl in baking pan on top of stove and add one cup

of boiling water and let steam until tender. Then put in oven and bake until brown.

Oyster Dressing.—Soak one loaf of bread one-half hour, then put a heavy skillet on the stove and let it get hot. Add one heaping tablespoon of butter. Squeeze out bread, not too dry, put in hot skillet with butter, stirring often to keep from burning. Then add two more tablespoons of butter and season with pepper and salt. Let stand on back of stove and cook slowly for fifteen minutes. Before serving put in one pint of oysters and add six cooking spoons of Turkey or Chicken gravy.

Mix ingredients in order given, and beat thoroughly. Shape,

dip in crumbs, egg, and crumbs again, and fry in deep fat; drain on brown paper. Fat must be allowed to become real hot again between each frying, or croquettes will break open. To shape, first form a smooth ball by rolling one rounding teaspoon mixture between hands, then roll on a board until of desired length, and flatten ends; or roll balls pointed at one end and flatten other end.

MRS. CHARLES SCHAEFER.

Rice.—Wash and cleanse the rice. Then pour boiling hot water on it—half a gallon of water to one cup of raw rice—and let it boil without stirring it for from twenty-five to thirty minutes, according to the quality of your rice. When the kernels, although each seems separate and independent, are soft, pour off the water, return it to the fire and let it steam until it seems dry. Then your rice is done and it may be served with sugar and cream, or with sugar and powdered cinnamon. Or it may be left plain and served with browned bread crumbs.

MRS. CHARLES SCHAEFER.

Tomatoes Fried.—

If you would fry tomatoes right,
 Select large ones, clean and bright;
 Slice them as thick as are your thumbs,
 And roll them well in cracker-crums:
 Add salt and pepper to the taste,
 A little sugar, too, in haste;
 Then, with a fire hot and bright,
 Heat well your pan, and do not slight
 The lard and butter, lest it burn.
 When browned on one side, overturn;
 And when, at last, both sides are done,
 Hot from the spider, give us one.

BREAD

Leavening Formulas.—A practical housekeeper needs to be able to formulate recipes. In preparing quick bread she must know the required consistency of flour mixtures—that is, the approximate proportion of moisture and flour, and the proportion of leavening, seasoning and shortening materials to use with flour; $\frac{1}{2}$ tea-

spoonful of baking soda to one cup of sour milk. $\frac{1}{2}$ teaspoon baking soda to 1 cup of molasses. 2 teaspoons of baking powder to 1 cup of flour when no eggs are used. When eggs are used reduce quantity of baking powder by $\frac{1}{2}$ teaspoon full for each egg. $2\frac{1}{2}$ teaspoons baking powder to one cup of coarse flour when no eggs are used. $\frac{1}{4}$ teaspoon of salt to one cup of flour. 1 tablespoon of fat to 1 cup of flour.

Apple Cake (Apfel Kuchen).— $1\frac{1}{2}$ cakes Fleischmann's yeast, 1 cup milk, scalded and cooled; 1 tablespoonful sugar, $3\frac{1}{2}$ cups sifted flour, $\frac{1}{4}$ cup butter, $\frac{1}{2}$ cup sugar, 2 eggs, $\frac{1}{4}$ teaspoonful salt, 5 apples. Dissolve yeast and 1 tablespoonful sugar in lukewarm milk, add $1\frac{1}{2}$ cups flour to make a sponge, and beat until smooth. Cover and set aside in a warm place until light—about $\frac{3}{4}$ of an hour. Have sugar and butter well-creamed, add it to sponge. Then add eggs well-beaten, rest of flour, or enough to make a soft dough, and salt. Knead lightly. Place in well-greased bowl. Cover and set aside to rise—about 2 hours. Roll $\frac{1}{2}$ an inch thick. Place in 2 well-greased, shallow pans. Brush with butter, sprinkle with sugar. Cut apples in eighths and press into dough, sharp edge downward. Sprinkle with cinnamon. Cover and let rise about $\frac{1}{2}$ hour. Bake 20 minutes. Keep covered with pan first 10 minutes, in order that the apples may be thoroughly cooked.

Apfel Kucheon.—Make a biscuit dough of 1 cup of flour, 1 teaspoonful of lard, 1 teaspoonful of baking powder, salt and milk enough that will make a dough that will roll out. Pare 6 apples, and slice rather small; place on top of dough that has been rolled out and placed in pie tin. Cream together 1 cup of sugar, 1 tablespoon of flour, 1 cup of milk, small bits of butter and cinnamon. An added egg makes this very good. Pour over and bake $\frac{1}{2}$ hour.

MRS. CHARLES SCHAEFER.

Bread.—Pare and boil until soft, 2 medium-sized potatoes. Scald with the potato water 1 large spoonful

of flour, and add the potatoes, mashed finely. When cool enough, add a cake of good, dry yeast that has been well-soaked in warm water; let this stand from noon until night in a warm place to rise. Then add to this a good tablespoonful of salt and a pint of warm water, and flour to make a stiff batter; beat well. (I sometimes add to this a little sugar.) Let stand in a cool place until morning. It is a good plan to stir this well occasionally when it is getting light and foamy. In the morning add $1\frac{1}{2}$ or 2 pints of lukewarm water, and knead to a stiff dough—don't be afraid to knead well and a long time, adding all the flour the dough will take—let stand until light, and knead well again; let rise again, and divide into loaves, kneading well again. When the loaves are light enough, bake in a moderate oven from 1 hour to 1 hour and 5 minutes. This makes 6 loaves.

MRS. ANNA K. WORNER.

Bread, White.—(Quick Method).—1 cake Fleischmann's yeast, 1 quart luke-warm water, 2 tablespoonfuls sugar, 2 tablespoonfuls lard or butter, melted; 3 quarts sifted flour, 1 tablespoonful salt. Dissolve yeast and sugar in lukewarm water. Do not allow it to stand more than 10 minutes. Add lard or butter, and $\frac{1}{2}$ the flour. Beat until smooth, then add balance of the flour, or enough to make dough that can be handled, and the salt. Knead until smooth and elastic. Place in greased bowl, cover, and set aside in a moderately warm place, free from draft, until light—about 2 hours. Mould into loaves. Place in well-greased bread pans, filling them $\frac{1}{2}$ full. Cover, and let rise 1 hour, or until double in bulk. Bake 40 to 50 minutes.

NOTE.—Two cakes of yeast may be used in this recipe with advantage to the bread and a saving of time.

Bran Bread.—2 cups sterilized bran, 2 cups graham flour, 2 cups flour, 1 cup sugar, 2 cups butter milk, $\frac{1}{2}$ cup dark molasses, 2 level teaspoons soda, 1 level teaspoon salt, 1 egg, well beaten, 1 cup broken nut

meats. Mix all dry ingredients together and all the wet ingredients together. Put the soda in the buttermilk, mix all well. Put into greased pan and bake 1 hour and 20 minutes. If desired $\frac{2}{3}$ cup of raisins may be added.

MRS JOHN ZERWEKH.

Bread (Brown).— $1\frac{1}{2}$ cups graham flour, $1\frac{1}{2}$ cups white flour, $\frac{3}{4}$ cup rye flour, 1 cup New Orleans molasses, 2 cups sour milk, 2 scant teaspoons soda, 1 scant teaspoon salt. Fruit, if desired. Steam in baking powder cans 3 hours.

Bread (Brown).—1 cup graham flour, 1 cup whole wheat, $\frac{1}{2}$ cup corn meal, 1 cup seeded raisins, 1 cup molasses, 1 teaspoon salt, 1 teaspoon soda, 1 cup sour milk. Add raisins last; steam 3 hours in baking powder cans, then bake $\frac{1}{2}$ hour.

MRS. J. D. CONAGHAN.

Bread (Fleischmann's Nut).—1 cake Fleischmann's yeast, 1 cup milk, scalded and cooled; 1 tablespoon sugar, $\frac{3}{4}$ cup chopped walnuts, 2 tablespoonfuls lard or butter, $\frac{1}{3}$ cup sugar, whites of 1 egg, 3 cups sifted flour, $\frac{1}{3}$ teaspoonful salt. Dissolve yeast and 1 tablespoonful sugar in lukewarm milk. Add $1\frac{1}{4}$ cups flour and beat thoroughly. Cover and set aside in warm place 50 minutes, or until light. Add sugar and lard, or butter, creamed; white of egg, beaten stiff; nuts, remainder of flour, or enough to make a dough, and lastly the salt. Knead well. Place in greased bowl. Cover and set aside for about $2\frac{1}{2}$ hours to rise, or until double in bulk. Mould into a loaf or small finger rolls, and fill well-greased pans $\frac{1}{2}$ full. Let rise again until light—about 1 hour. Loaf should bake 45 minutes.

MRS. C. J. AYDELOTT.

Bread (Graham).—To a large cup of yeast sponge add 1 quart of warm water, a teaspoon of salt, a tablespoon of sugar, 2 tablespoons of table syrup, and a quart of graham flour; add white flour and mix. Turn on board and knead more white flour in the dough. Do not work as stiff as white bread; return to well-greased bowl and set in a warm place to rise. Form into loaves, and let rise just $\frac{1}{2}$ hour. Bake in a moderate oven 1 hour.

MRS. E. B. SANBORN.

Bread (Graham Nut).—1 quart graham flour, 1 cup light brown sugar, 1 cup nut meats, 1 teaspoon salt, 1 teaspoon baking soda, dissolved in warm water; 1 cake compressed yeast. Coffee Cake.—Let 1 cake of compressed yeast dissolve for 15 minutes in $\frac{1}{4}$ cup luke warm water, to which a teaspoon of sugar has been added. While this is dissolving, pour 1 cup of hot water on 1 cup mashed potatoes (left from dinner), and stir over fire until all lumps in the potato have disappeared; while hot, stir in $1\frac{1}{2}$ cups sifted flour. Let this stand until it is luke-warm, and then stir in the dissolved yeast cake. Set in a warm place, and let it rise. When it has raised to double its original size, add to it the following: $1\frac{1}{2}$ cups warm water, $\frac{3}{4}$ cup melted butter and lard (half and half), 2 whole eggs, or the yolks of 3 (the yolks are preferred); 1 tablespoon salt, $\frac{3}{4}$ cup sugar, and 7 cups flour. Work this until the dough leaves the fingers easily, set in a warm place to rise (about 3 hours); then divide the dough into 5 parts, roll out, and put in pie pans; let rise once more, then spread on melted butter, sugar, and cinnamon; bake in a moderate oven. CAKES

"Whatsoever thy hand findeth to do, do it with thy might."

Frostings and Fillings

Cake should be nearly cold before attempting to frost it. In frosting dip the knife frequently in cold water. Very thick frosting may be made to adhere to a cake by taking 1 teaspoon of gelatine dissolved in a little boiling water and while hot rubbing all over the top of the cake. Then apply the frosting. One teaspoon of lemon juice will do much toward preventing frosting from crumbling.

Almond Cake Filling.—1 lb. almonds, ground; 1 vanilla bean, ground; 4 eggs (yolks and whites beaten separately), 16 tablespoons sugar, scant $\frac{1}{2}$ pint sour cream, beaten. This is enough for 2 cakes.

ANNA STEEN ZIMMER.

Angel Food.—Whites of 11 large or 12 small eggs, $1\frac{1}{2}$ cups sugar, 1 level teaspoon cream of tartar, pinch of salt, 1 teaspoon vanilla, 1 cup Swansdown flour. Sift flour and sugar each 4 times, measure, and sift 3 times more; set aside. Put whites in a gallon crock, add pinch of salt, beat with a woven wire egg beater until foamy; then add cream of tartar and beat until very stiff. Sift in sugar gradually, beating constantly; add vanilla, then quickly sift and fold in flour with egg beater or with the hand. Place at once in an ungreased angel food pan, and bake about 45 minutes in a moderate oven. Do not open oven the first 15 minutes, after which watch and turn as necessary. Cake should rise very high over top of pan and then be allowed to go down to about level of pan before taking from oven. If taken out before it has a chance to level, it will fall. Invert pan at once, place so air can circulate under cake; let hang until cold; cut cake from sides and tube and shake out on plate. To have a nice, high cake one must work very quickly, without stopping, from the time you begin whipping whites till cake is in oven.

MRS. ARTHUR HINNERS.

Angel Cake.—Whites of 8 large or 9 medium eggs, $1\frac{1}{4}$ cups granulated sugar, 1 cup Swansdown Cake Flour, $\frac{1}{2}$ teaspoon cream of tartar, a pinch of salt

added to eggs before whipping, flavor to taste. Sift, measure and set aside sugar and flour; whip eggs to foam, add cream of tartar, and whip until very stiff; add sugar and fold in (always using a spoon to mix cakes with) then flavor and fold in, then flour and fold in lightly through. Put in a moderate oven at once. Will bake in about 25 minutes; should not take longer, as baking too long dries out moisture, makes them tough and dry. Put in moderate oven—too hot for butter cakes and not hot enough for biscuits. If cake is properly mixed it will raise above pan. When it is done it begins to shrink; let it shrink back to level of pan. Watch carefully this stage and when it shrinks back to level of pan take out of oven and invert immediately, rest on center tube, let hang until perfectly cold, then cut cake loose from around sides and center tube. Knock back slide, insert knife and cut loose from the bottom; turn out.

Angel, Fruit or Nut Cake.—Make dough same as plain angel cake. Put half dough in cake pan, cut candied or brandied cherries in two pieces, drop on top of dough in pan, say about half cup of cherries, or if nuts, half cup of nuts, half cup of raisins, half cup grated cocoanut, half cup of any of the above, or if a mixture is desired, use one-fourth cup of any two fruits, or fruit and nuts, then put rest of dough on top, spread evenly with a spatula, then run spatula through to the bottom of pan and gently mix the fruit all the way around. Bake same as plain cake, let hang in pan and cut out as directed.

Any of the above mixtures will be delicious and cake baking a delight. If brandied cherries are used, wipe moisture out of them.

Angel Fig Cake.—Make same as angel cake. Bake in two-layer tin; let cool. Make icing from the whites of 4 eggs, flavor with vanilla. Spread layer of icing, then layer of finely chopped figs that have been cooked 20 minutes in slightly sweetened water and well drained. Spread another layer of icing, put on top

layer and cover with icing; lastly figs. Soft figs need only to be soaked in hot sweetened water.

Angel Food Cake (Mock).—Set 1 cup of milk in a pan of boiling water; bring to boiling point. In a sifter put 1 cup of sugar, 1 cup of flour, and 3 teaspoons baking powder, and a pinch of salt. Sift together 4 times; into this pour the boiling milk, and stir. Fold in with care the well-beaten whites of 2 eggs. Do not flavor cake nor grease the pan, but flavor frosting with lemon. Dough will be thin and bubbly, but cake fine.

Bring fruit to front of stove, let it come quickly to a boil and drop batter by tablespoons over the top. Cover closely for twenty minutes. MRS. JOHN A. NEW.

Lemon Pudding.—Beat the yolks of 4 eggs smooth with 2 tablespoons of granulated sugar; then stir in

the juice and grated rind of a large lemon and 2 tablespoons of boiling water. Cook in a double boiler, stirring occasionally, until like thick cream. If one is in a hurry, and this cream must be cooked in an ordinary sauce pan, it requires stirring constantly until done. Beat the whites of the eggs until stiff, then beat into them 2 tablespoons of granulated sugar. When this looks like a meringue, it is to be beaten into the yellow mixture while still hot, which cooks it sufficiently to keep the whites from falling. If 6 eggs are used, the proportions being changed accordingly, this will fill a quart dish. Serve with cake or crackers.

MRS. A. H. BEIMFOHR.

Lemon Tapioca.—2 tablespoons of tapioca, soaked over night in a little water; in the morning add $\frac{1}{2}$ cup of cold water and the peeled rind of 1 lemon; set on the stove, and boil until clear. Put in a mould, and cool and serve with sugar and cream.

Lillies.—Take sponge cake dough, drop on slightly-buttered paper by the large spoonful, being careful not to have them touching, and bake in a moderately quick oven. When baked, slip them with a sharp knife from the paper to the baking board. Press ever so slightly with rolling pin. Fold each around your finger the shape of an ice-cream cone, and pin with a tooth pick. Lay on a cloth or paper to cool. When cool, put into each a small tablespoonful of whipped cream, and press a cherry, or bit of jelly the size, into the middle of the cream. Remove picks, and stack on plate. This is a dish that bears the name of "Lillies."

MRS. JOSEPHINE JUNKER.

Louise Pudding.—This is a delicious dessert, that can be made from a loaf of stale brown bread. Pour over 2 cups of boiling milk for every 6 ounces of bread; cover with plate, and let stand until quite soft; then

lift out bread, and put in strainer, pressing out all moisture; beat with a fork, removing any hard pieces; add 3 tablespoons brown sugar; grate rind of 1 lemon, 3 tablespoonfuls of Sultana raisins, 1 teaspoonful each of baking powder and vanilla extract; mix thoroughly, and add 2 well-beaten eggs. Place in a buttered pudding mould, cover with a buttered paper. Steam steadily for 1½ hours. Turn out when finished, and serve with sweet sauce.

Turn into a shallow pan, first dipped in cold water, let stand until thoroughly set. Remove from pan, and cut in pieces like marshmallows; then roll in macaroons, which have been dried and rolled. Serve with sugar and cream, or with a thin custard sauce made with the yolks of the eggs.

Let each stand until sure that the color will not run into each other, beating it now and then. Dust a bread pan with powdered sugar; put in the chocolate part, sprinkle with English walnuts; so on with each part.

After standing a few hours the brick will turn out like ice-cream. Serve in slices with whipped cream.

MRS. H. W. MATTHEESSEN.

PASTRY

“Only two things are needed—a glass roller and the magic hand”

DO NOT TOUCH the pastry with the hands until ready to roll out. Cut shortening and flour together with a knife. Have the lard and water as cold as possible. Ice water is better. To make the pies nicer one fourth of the shortening may be left out and the pastry intended for the upper crust can be rolled flat, spread with butter, sprinkled with flour, folded together and rolled again. Repeating this until the shortening is used. This makes a flaky upper crust. Washing the upper crust of the pie with milk before placing it in the oven makes it brown nicely.

Cheese Straws.—2 cupfuls of grated cheese, $\frac{1}{2}$ cup of butter, 1 cup of flour, pinch of salt, and dash of paprika. Water enough to make a soft dough. Roll thin, cut in small strips, and bake in moderate oven to a delicate brown.

MRS. LOUIS ALBERTSEN.

MRS. J. G. NEDDEMANN.

Cream Puffs.—1 cup hot water, $\frac{1}{2}$ cup butter. Boil together while boiling stir in 1 cup of sifted flour, dry. Take from the stove and beat 5 minutes, and after this cooks stir in three eggs, unbeaten, one at a time. Stir it five minutes, let cool. Drop by tablespoonfuls on to a buttered tin and bake in a quick oven for 25 minutes, opening the oven door no more than is absolutely necessary AND BEING careful they do not touch each other in the pan. This will make twelve puffs.

CREAM FOR ABOVE PUFFS.—1 cup of milk, 1 cup sugar, 2 eggs, 3 tablespoons flour and 1 teaspoon vanilla. Stir the flour into a little of the milk. Boil the rest, turn this in and stir until the whole thickens. When both cream and puffs are cool open the puffs on the side with a knife and fill with cream.

Peach Tarts.—Bake tart shells in the usual way. Then drain one can of large peaches and place one piece, round side up, into each tart shell. MRS. W. F. FLUEGAL.

Puff Paste.—1 pound flour, 1 pound butter, mix one half the butter with the flour so as to make it quite stiff, using as little cold water as possible. Roll and cut remaining butter into bits and dot over the paste, dredge well with flour. Fold over, roll lightly together and set aside for a few minutes in a cool place, then roll again, put on butter and dredge as before, roll up and then roll out. Repeat this until the butter is gone. Do it quickly and handle as little as possible. Puff paste is for upper crust only. Use a plain paste for under crust. Puff paste will keep a week if put on ice.

Tart Shells.—These are a most convenient resource for the housekeeper in case of unexpected guests as well as a pretty and ornamental dish for the table. The ends of paste left from pies may often be turned to good account in this manner. Line small tins or patty-pans with paste, pricking with a fork to prevent blistering, bake and set away. Fill them as needed with jelly or preserved fruit. These shells may be glazed by brushing over with the yolk of an egg before putting in the oven.

HONEY, PRESERVES, ETC.

“With dispatchful looks, in haste she turns, on hospitable thoughts intent.”—*Milton*.

Hints for jelly making. Crab-apples have a reliable jelling quality. To them you may also add plum, grape, blackberry or some other fruit juice less likely to harden satisfactorily. From one quarter to one-half of plum or other fruit will give the flavor of the foreign fruit without losing the jelling quality. For a delicate flavor add a rose geranium leaf to the juice when boiling it with sugar, a single leaf will flavor a whole kettle full of juice. Spice jelly is a most delicious relish for cold meats, especially lamb and veal. To make it, add a cupful of whole spices stewed into a muslin bag, to a large kettle full of juice while boiling, removing the bag just before straining the juice into glasses. Use allspice, stick cinnamon, cassia buds and whole cloves, adding the last with judgment because of its dominant flavor.

SUGGESTIONS FOR PRESERVES.—When preserves is done take the kettle off the stove and set in a pan of cold water. Keep stirring until cool and then can.

MRS. PEBBLES.

Heavy Preserve for Pickling Fruits.—2 cups vinegar, 1 cup water, 3 cups sugar, add spices to suit the taste.

MRS. FRANK HECKMAN.

Rich pound for pound preserves in jam can be put away without sealing. Simple cover with melted paraffin and covers.

GENERAL DIRECTIONS FOR JELLY.—For berries, currants, or grapes, heat the fruit, strain it, and add 1 lb. of sugar to each pint of juice. Crab apples, quinces, or apples must be stewed before straining, and to apple jelly add the juice of 4 lemons to 6 pints of apple juice. For any jelly, boil the juice about 20 minutes, add the

sugar, heated in the oven, and let it boil 2 or 3 minutes more.

Apple Butter, Baked.—Quarter and core a gallon of good cooking apples; wash, and place in a large kettle. Add a quart of water, and when the apples are thoroughly cooked, set aside to cool. Press through colander. To each quart of sauce add a large cup of sugar and a piece of stick cinnamon. Place in a crock or large, granite vessel, and bake in a moderate oven 3 or 4 hours. To test the butter, take out a few spoonfuls in a sauce dish, and cool; if there is no watery edge, it is done. Put up in glass jars, and seal while hot.

MRS. E. B. SANBORN.

Apricot Jam.—Wipe off fresh apricots with a cloth—do not peel. Cut into quarters, and then halves. Save pits. Measure $\frac{1}{2}$ as much sugar as fruit. Let fruit stand with sugar until syrup forms, or over night. Cook pits with a little water. Put fruit on to boil, add water from pits; let cook about $\frac{1}{2}$ hour, or till $\frac{3}{4}$ done. Let stand several hours, or over night. Next morning boil again until thick enough. Must be stirred constantly during last boiling, as scorches very easily. Seal airtight while hot.

MRS. ARTHUR W. HINNERS.

Cantaloupe Preserves.—1 dozen cantaloupe, peeled and cut in small pieces; $\frac{3}{4}$ as much sugar as cantaloupe; enough water to mix well. When about half done, add $\frac{1}{2}$ lemon, sliced thin; boil slowly until it thickens. This is very good.

MRS. ED. WETZEL.

Crab-Apple Jelly.—For the jelly cut the crab-apples into quarters and wash them thoroughly in a colander. Worm-holes and decayed spots must, of course, be cut out; but it is not necessary to remove stems, skin, cores or blossom ends. Place the fruit in a porcelain kettle, add cold water barely to cover and cook slowly until thoroughly soft. Mash with a wooden spoon or a potato masher, and pour into a flannel jelly-bag wrung

out of hot water. Drain over night. In the morning measure the juice, add an equal quantity of sugar and boil, skimming carefully until the syrup begins to thicken on the skimmer. Very careful housewives strain a second time through cheese cloth before pouring into scalded glasses. It often stiffens while it is being poured. Cover with melted paraffine after the jelly has cooled.

Crab-Apples, Spiced.—Wipe sound, large crab-apples and remove the blossoms. In its place put a whole clove, and in every fourth apple an extra clove. Put the apples in a steamer and steam until soft; then put them into cans without crushing. For the syrup allow one and one-half cups of sugar for a pint of water, and boil until it will just fill a quart can of the apples. Can and seal while hot. Do not remove the stems.

Crab-Apple, Preserves.—Cover the crab-apples with water. Cook slowly until a little tender; then carefully skim out and set aside to cool. For every cup of water left in the kettle add 2 cups of sugar; boil until clear, skin and cool. When both are cold, return the fruit to the syrup, and set again over the fire. The moment it actually boils remove it from the fire and put it immediately into cans, sealing, as usual.

Crab-apples also are nice when “sweet-pickled,” and when cooked with quinces they make excellent conserve. Just be careful to not let your mixture become too “gummy.”

Cranberry and Apple Jelly.—1 pint apple juice, 1 pint cranberry juice, 3 cups of sugar. Prepare apple juice as for apple jelly. Prepare cranberry juice as for cranberry jelly. Combine them and boil five minutes. Add the sugar and boil until the jelly test is obtained.

Delicious Preserves.—1 peck pears, 2 quarts cranberries, 3 oranges, 9 lbs. sugar. Parboil orange peeling twice, and grind all together. Boil 30 minutes.

MRS. D. D. VELDE.

Grape Conserve.—3 lbs. sugar, 2 lbs. raisins, 1 lb. chopped walnuts. Stem 1 basket grapes, put in the kettle, cover with cold water, cook until soft; put through ricer. Put on stove, and add sugar and boil up; add raisins and boil up; add nuts. Good to serve with meat.

MRS. J. H. BROOKS.

Grapefruit-Orange Marmalade.—1 orange, 1 grapefruit, 1 lemon. Slice as thin as possible the pulp and skin after removing seeds and core of grapefruit. Add 3 times as much water as fruit; let stand over night. Next morning boil 10 minutes; let stand another night. The next morning add equal amount of sugar. Cook until it jellies.

Peoria, Ill.

KATHERINE VELDE.

Grape Jam.—Take your grapes and separate the skins from the pulp, keeping them in separate dishes. Put the pulp in preserving kettle with a touch of water; when thoroughly heated, run them through a colander to seed them; then put the skins and pulp together, adding $\frac{3}{4}$ as much sugar as fruit; add merely water enough to keep from burning; cook slowly for about 1 hour, or until the proper thickness.

MRS. G. N. WEBER.

Grape Jelly.—Pick grapes from stems and wash thoroughly, put them into preserving kettle and cover with water and heat slowly until juice is well drawn out of them; pour into a sack and allow to drain for an hour without pressure. To two scant cups of juice add 1 heaping cup of sugar and boil for 20 minutes or until it jells when tested. Pour into glasses and seal when cool.

MRS. WALTER F. FLUEGAL.

Grape Jelly Spiced.—Make same as grape jelly only to each quart of juice add $\frac{1}{2}$ teaspoon of whole cloves and one stick of cinnamon. This is very good to serve with game or cold meat and also makes a good emergency sandwich filling.

MRS. WALTER F. FLUEGAL.

Grapes, Raisins, Nuts, Oranges, Sugar.—Remove skins from grapes. Put pulps in separate kettle. Bring to boiling point then strain. Cook grape skins and oranges until orange skins are tender, then add to strained pulp. Measure cup of sugar to a cup of fruit and cook until thickened. Add chopped nuts, not too fine, and pour into sterilized glasses.

AMELIA ZERWEKH.

MRS. J. H. BROOKS.

Orange Marmalade.—1 quart rhubarb, when cut in pieces; 4 oranges, 1 lemon, 3 lbs. sugar. Grate the rind and put in last. Peel all white off, and break oranges in pieces. Extract juice of lemon. Cook rhubarb, add sugar, and cook; then add juice and fruit; and lastly, the grated rind, and cook until stiff.

MRS. C. J. AYDELOTT.

Orange Marmalade.—Slice very thin 3 oranges and 1 lemon; juice of 1 lemon. Measure, and add to each cupful $1\frac{1}{2}$ cups of water. Boil $\frac{1}{2}$ hour. Set aside until next day; measure, and to each cupful add $1\frac{1}{2}$ cups sugar, and boil $\frac{1}{2}$ hour.

MRS. HENRY ZUCKWEILER.

Peaches, Canned.—Scald one bushel of peaches, have water boiling, then cover and let stand until cool, then the peach peel will come off very readily. Cut peaches in halves and place in jars as many as jar will hold. Then put boiling syrup over and seal at once. Much better if put in tin cans.

MRS. W. H. WILCOX.

Peach Honey.—Take peach peeling and cover with water. Set on to boil, and when done, rub through a

colander; add to this as much sugar as you have juice, and put on again to boil 1 hour; when about done, add a little stick of cinnamon. Very fine.

MRS. HENRY VAN HORN.

Pear Butter.—Pare, core, and cook pears until well done; put through colander. To each quart of pears add 1 quart sugar; add a few cinnamon sticks. Put in the oven, and bake 3 or 4 hours.

MRS. R. D. LACKMON.

Pear Honey.—Peel and core the pears. Cut in quarters, and put through meat grinder. To 2 cups of the ground pulp add $1\frac{1}{2}$ cups sugar. Cook as you would apple butter, or until it is thick enough to spread. Put in a few sticks of cinnamon for flavor. It will not be necessary to add water, as the juice of the pears is sufficient. It can be cooked in the oven like apple butter, and thus will require very little attention.

MRS. CHRIST HECKMAN.

Pear Preserve.—Peel and cut in thick slices as many pears as desired. Boil until tender, then take out pears and add cup for cup of sugar and water pears were boiled in; let boil to a syrup, then add pears and cook until preserved.

MRS. MILLARD HIETT.

Quince Honey.—4 lbs. granulated sugar, 1 quart water boiled together 20 minutes. Add 2 good, firm quinces, grated. Put in as fast as grated to keep it white; then boil all 2 minutes more, and put in tumblers same as jelly.

MRS. MAURER.

Quince Honey.—Pare and core 5 quinces, and put the quince through the fine food chopper. Put the skins and cores in kettle to boil in 1 pint of cold water; when they are tender, strain the liquid off, and add cold water to make a pint of juice; then pour that juice into preserving kettle, with 5 lbs. of fine sugar. When dissolved, add quinces, and after they begin to boil, just boil hard 15 minutes and put into tumblers. This makes several glasses, and is most delicious.

MRS. RICHARD ROELFS.

MRS. KUHLMAN.

Lemonade.—1 cup sugar, 1 pint water, $\frac{1}{2}$ cup lemon juice. Make syrup by boiling sugar and water 12 minutes; cool slightly; add lemon juice. When cold, dilute with ice water to suit individual tastes. Nice in summer, to make up a quantity, as will keep well in ice-box and one is prepared to serve lemonade at any time. Orange, pineapple, cherry, strawberry, or other fruit juices can be added at serving.

MRS. ARTHUR W. HINNERS.

Punch.—2 cans grated pineapple, 2 cups strong, freshly-made tea (black), 3 dozen lemons, 1 dozen oranges, 2 pints grape juice, 5 lbs. sugar, and 6 cups water, cooked to syrup; add about 10 quarts cold water.

OLIVE A. BALCKE.

Tea.—Use 2 teaspoons of tea, 1 pint of boiling water. Have the water freshly boiling, scald teapot, put in tea and pour boiling water in the proportion given. Cover and keep in warm place where it will not boil. If it cannot be used at once pour off the tea and discard leaves. An earthen teapot is preferable.

Iced Tea.—Iced tea is made the same as hot tea some hours before using, the tea being poured off the leaves, cooled and placed near the ice. Iced tea should be taken clear and weaker than hot and slices of lemon should be passed with it.

CANDIES

“It is the bounty of nature that we live; but of philosophy that we live well.”—*Seneca*.

Almonds (Blanched).—To blanch almonds, cover with boiling water 2 minutes, drain, rub off skin and dry.

Bon Bons.—The centers of bon bons are made of fondant shaped in small balls. Flavor as desired, usually vanilla; but rose, maple, or almond extract may be used. Coconut, whole or broken nut meats, or candied fruit may be mixed with the fondant. To dip the bon bons, melt the fondant in a sauce pan over hot water; color and flavor as desired. A few drops of water may be added. Drop centers in fondant 1 at a time; stir until covered; remove from fondant with a fork or bent new hair-pin. Put on oiled paper. A half-nut meat may be placed on top as soon as dropped.

Bitter chocolate may be melted and used to dip centers of fondant in. Care must be taken not to drop water in the chocolate.

Remove from fire, and beat until it starts to get thick; add this to the beaten white of an egg; beat well, and pour on a buttered platter.

MISS CORA KIEF.

Candied Oranges.—Use ripe, thin-skinned oranges of medium size; peel them, taking care not to make the juice run: then divide into sections, and lay them on plates in a warm place for a few hours, so that they may get a little dry on the outside. Then with a wooden toothpick take seeds out of thin, little pockets. (This can be done without starting the juice.) Put in sauce pan 1 lb. of best granulated sugar, $\frac{1}{2}$ cup of water, $\frac{1}{2}$ teaspoonful cream of tartar. Stir until sugar is dissolved, then boil until candy is brittle. Set off the fire, and dip the pieces of orange in, being careful not to stir the candy. Lay them on dishes, slightly greased, to dry. If candy becomes hard, add 1 spoonful or 2 of water, and heat again. Grapes or nuts can be prepared in the same way.

NORMA DUISDIEKER.

Choice Caramels.—Cook until the mixture boils vigorously 2 cups granulated sugar, 1 cup sweet milk, $1\frac{3}{4}$ cups Karo syrup, 1 cup butter. Gradually stir in a second cup of sweet milk, but do not permit the boiling to cease a minute. Test in cold water until a firm ball may be formed. Just before removing from the fire, add 1 teaspoonful of vanilla, and as much nut meats as

MRS. HARVEY WRIGHT.

Chocolate Creams.—2 teacups (1 lb.) granulated sugar, 1 gill of water in damp weather, or a scant $\frac{1}{2}$ pint in dry weather. Dissolve sugar in the water as nearly as possible. Boil without stirring until it will string from a fork; then test in cold water, in which it should form a soft ball. Remove carefully from stove, and set in cool place until it becomes jelly-like. Beat until stiff, then knead. Various flavorings may be used, as desired. After kneading until firm, mould into cream shapes, and coat with chocolate and paraffine melted together in the proportion of about 4 parts chocolate to 1 part paraffine.

Then add $\frac{1}{2}$ cup of milk and cook until it forms a soft ball when dropped into cold water. Take from fire, add vanilla, and beat until it is just thick enough to pour into buttered tins. Divinity Fudge.—Boil together 2 cups granulated sugar, 1 cup maple syrup, and 1 tablespoon vinegar until a little of it hardens in cold water. Then add 1 teaspoon vanilla, and take from fire. While this mixture has been cooking, a cupful of granulated sugar should have been put over the fire in another sauce pan with $\frac{1}{2}$ cup of cold water, and boiled until the mixture spins a thread from the tip of the spoon. This should, at this stage, be put with the stiffly-whipped whites of 2 eggs, and this stirred into the first preparation, which should by now have cooled slightly. Beat the 2 hard until they begin to stiffen, and turn in 2 cups of chopped nut kernels. Pour into pans, and cut into squares. When using gasoline for cleaning spots from clothing, if a little salt is added, no circle will remain.

MRS. W. F. WILLIAMS.

If milk happens to boil over on stove, sprinkle at once with salt to prevent the disagreeable odor of burned milk.

To burn sugar makes a good disinfectant.

Sugar for the Fire.—The next time your fire has almost gone out, try throwing a little granulated sugar on it, which will have the same effect as kerosene, but is not at all dangerous.

Hard Butter Smoothly Cut.—If you want to cut hard butter into squares, and find you can not do it without crumming, fold a piece of waxed paper in which the butter was wrapped around the blade of the knife. You can then make a perfectly smooth cut.
